- 2) Short press the Power On/Off button to return. Long press the Power On/Off Button to make it Power On/Off.

## GETTING STARTED:

### - For Android

1) How to obtain the BT Connection APK (**YFIT**)

Search for the **YFIT APP** in the Play Store; download it and install it in your Android smartphone, or go to our **website [www.sami.es](http://www.sami.es)** and download the application.

2) Installation of the **YFIT** APK.

When installing the **YFIT** application on your Android, you must allow all the Application Permissions, allow this **YFIT** app auto run.

The first time you run this **YFIT**, it will ask you to Enable Notifications, please tap OK and tap the **YFIT** and confirm OK. You must tap OK/Allow/Pair/Yes/Confirm for any pop-up request. On your Android permission management, allow all application permissions.

3) How to make the wearable pair with your Android smart phone

\*First, turn on the Bluetooth of your Phone.

\*Second, run the **YFIT** app on your Phone, on the home page of **YFIT**, select "**DEVICE**", then select "**ADD DEVICE**", and the APP will search for new Bluetooth device(s), when the available Bluetooth device displays, please select **WS-2346** (the BT name of this device) to make it pair. The pairing will be finished in a few seconds. When you pair for the first time, the app **YFIT** will ask you to fill some personal information such as gender/age/height/weight. When you finish select OK/Confirm/Allow for any pop-up request.

\* Now you can start using your desired functions of the smart band.

**Important:** To enable all notifications of different softwares such as WhatsApp, Facebook, Skype, Twitter, you may need to turn on the notifications on the APP manually. On the **YFIT**

homepage, select the Device icon (middle icon situated at the bottom of the interface) → then select APP alerts, → and turn on all the APP notifications you want to active.

## - For iPhone

1) How to obtain the BT Connection APP? (**YFIT**)

On iPhone, please go to APP Store and search **YFIT** and install the app.

2) How to make the wearable pair with your iPhone

\*First, turn on the Bluetooth of iPhone

\* Run the **YFIT** app on the iPhone, on the home page of **YFIT**, select "**DEVICE**", then select "**ADD A DEVICE**" the APP will search for new Bluetooth device(s), when the available Bluetooth device displays, please select **WS-2346** (the BT name of this device) to make it pair. The pairing will be finished in few seconds. When you pair for the first time, the app **YFIT** will ask you to fill some personal information such as gender/age/height/weight. When you finish select OK/Confirm/Allow for any pop-up request.

\* Now you can start using your desired functions of the smart band.

**Important:** To enable all notifications of different softwares such as WhatsApp, Facebook, Skype, Twitter, you may need to turn on the notifications on the APP manually. On the **YFIT** homepage, select the Device icon (middle icon situated at the bottom of the interface) → then select APP alerts, → and turn on all the APP notifications you want to active.

**ATTENTION: In IOS and in Android** your wearable should be connected through the app and not with the Bluetooth menu of your phone. If you have paired it on the Bluetooth menu, unpair it and forget the device to start the correct binding through the app.

## PRODUCT FEATURES

### BLUETOOTH (V 5.0)
