WEARABLE
User Manual
WS-2368

Thank you for purchasing the **Sami** wearable WS-2368. Read the instructions carefully to obtain optimum results and preserve it for future reference. **Sami** has developed wearable devices since 2015 and we use the best components possible for the product.

DESCRIPTION OF THE WEARABLE.

CONTENTS.

Wearable, Magnetic Base charger , instruction manual.

CHARGING.

Connect the device to a computer or laptop with the USB Magnetic base for charging. Put in contact the magnetic end of the USB cable with the charging points positioned in the back of your device. Kindly use only the USB cable included with the wearable. If you use a power adapter for charging, the output of the power adapter should be 5V, 1A. Charging time: 2 hours. Please charge the device fully before using. Be careful the charging cable shall not be laid on any metal objects with its end which have metal contacts, in case the charging cable damaged due to short circuit.

HOW TO POWER ON / POWER OFF?

- 1) To turn ON the smart band, long press the Power button for few seconds to make it Power On.
- 2) To turn OFF the smart band, long press the Power button for few seconds until the Power OFF interface displays, then select slide to make it Power Off.

HOW TO CONTROL?

- 1) On the display screen(touchscreen)tap and slide from the left towards right to return; tap and slide towards left/right/up/down to change between the different menu pages.
- 2) Short press the Rotatory button or the return button to go back. Long press the Power Button to make it Power On/Off.

GETTING STARTED:

- For Android

- 1) How to obtain the BT Connection APK (**RDFit**)

Search for the **RDFit** in the Google Play; download it and install it in your Android smartphone, or go to our **website www.sami.es** and download the application.

- 2) Installation of the **RDFit** APK.

When installing the **RDFit** application on your Android, you must allow all the Application Permissions, allow this **RDFit** app auto run.

The first time you run this **RDFit**, it will ask you to Enable Notifications, please tap OK and tap the **RDFit** and confirm OK. You must tap OK/Allow/Pair/Yes/Confirm for any pop-up request. On your Android permission management, allow all application permissions. **Please allow locations services and background permission for correct use of the device.**

- 3) How to make the wearable pair with your Android smart phone

*First, turn on the Bluetooth of your Phone.

*Second, run the **RDFit** app on your Phone, and have the watch display ON. Now on the home page of **RDFit** select "**Searching Device**", the APP will search for new Bluetooth device(s), when the available Bluetooth device displays, please select **WS-2368** (the BT name of this device) to make it pair. The pairing will be finished in a few seconds. When you pair for the first time, the app **RDFit you must allow all the permissions such as bluetooth use or locations services.** The first time on the bottom menu you must fill in your personal information such as gender, height or weight.

* Now you can start using your desired functions of the smart band.

Important: To enable all notifications of different softwares such as WhatsApp, Facebook, Skype, Twitter, you may need to turn on the notifications on the APP manually. On the **RDFit** homepage, select the Push Notifications icon (middle icon situated at the bottom of the interface) →then select notifications, → and turn on all the APP notifications you want to active.

Also you must access to settings in your Android device and in the menu of apps give the corresponding permissions to **RDFit**.

BLUETOOTH HANDS FREE CONNECTION:

To connect the hands free talking connection, you must pair the watch by bluetooth. The device name would be WS-2368CALL.

Once it is paired the watch would function as a hands free kit and any phone call received you could do it on the watch. You can hear and also talk. . The watch must be within the Bluetooth range with your phone.

- For iPhone

1) How to obtain the BT Connection APP (**RDFit**)

Search for the **RDFit** in the App Store; download it and install it in your iPhone.
