GETTING STARTED:

- For Android
1) How to obtain the BT Connection APK (**VeryFit**)
Search for the **VeryFit APP** in the Play Store; download it and install it in your Android smartphone, or go to our **website www.sami.es** and download the application.
2) Installation of the **VeryFit** APK.
When installing the **VeryFit** application on your Android, you must allow all the Application Permissions, allow this **VeryFit** app auto run.
The first time you run this **VeryFit app**, it will ask you to Enable Notifications, please tap OK and tap the **VeryFit** and confirm OK. You must tap OK/Allow/Pair/Yes/Confirm for any pop-up request. On your Android permission management, allow all application permissions.
3) How to make the wearable pair with your Android smart phone?
*First, turn on the Bluetooth of your Phone.
*Second, run the **VeryFit** app on your Phone, on the home page of **VeryFit**, find the pairing request by the setting all your values requested and then select **"watch"**. You must have the screen of the watch on and the APP will search for new Bluetooth device(s), when the available Bluetooth device displays, please select **WS-2376** (the BT name of this device). Select the device on the app to make it pair. Select **"confirm tick" on the watch** and the pairing will be finished in a few seconds. When you pair for the first time, the **VeryFit** app will ask you to o enable GPS and Bluetooth, and authorize **VeryFit** to get access to the location service while using the app. Please accept all the requests for the correct functioning of the device. When you finish select OK/Confirm/Allow for any pop-up request.
4) In the case that on the watch you have the QR CODE on the screen, then in the APP **VeryFit** click the icon of scan on the top left of the menu and scan the qr code of the watch with the camera.

Important: To enable all notifications of different softwares such as WhatsAPP, Facebook, Skype, Twitter, you will need to turn on the notifications on the APP manually. On the **VeryFit** homepage, select the icon **"Device"** (situated on the right bottom of the screen), → select **"WS-2376"** → select **"message notification"** → turn on **"Allow notification"** and turn on all the APP notifications you want to active. To confirm you must click on the   icon located on the top right.
